In cases, where the date of weighbridge receipt for placing the potato in storage and invoice date is different then we consider the date of storage as follows: "Date of weighbridge receipt and Date of invoice whichever is earlier". The same has been applied uniformly in all previous applications. This was done due to the reason that some applicants claim that the invoices are issued at the time of storage of potato in cold storages and some applicants claim that the invoices are issued at the time when potatoes are taken out of the cold storages. The date of storage in this case was considered on 04.03.2022 (Earlier of 04.03.2022 or 23.11.2022). 					TC observed that the average market price and/or trigger price for Banana in Jalgoan cluster is not received from state government as requested by the Ministry. PMA informed the TC that average monthly price of Banana for the month of June, July, August, September, October and November for year 2022 is more than trigger price calculated for the cluster above. Hence 3 applications for Storage/ Transportation of received from Sunria Agro Produce OPC Private Limited for these months are not meeting the clause 2(G)(i) of scheme guidelines dated 25.05.2022. In view of above, it is proposed the applications are considered ineligible.

TC Decision: TC considered the above applications as ineligible for storage/ transport subsidy.
