Background

Food safety and quality remain critical priorities for all stakeholders, including the food industry, regulatory bodies, and consumers. As new challenges and complexities in food safety emerge, stakeholders continue to enhance mechanisms to meet rigorous standards. Food testing laboratories play a vital role in this ecosystem, providing scientific analysis to determine whether food is safe for consumption and free from adulterants or contaminants.

As India's food processing sector grows, there is an urgent need to bolster Quality Assurance and Food Testing Infrastructure to support regulatory compliance and consumer health. Ensuring safe, hygienic, and wholesome food, requires testing of both domestic and imported products to check if they meet national and international standards.

The Ministry of Food Processing Industries (MoFPI) has been implementing the Food Safety and Quality Assurance Infrastructure (FSQAI) Scheme since 2005. In 2017, the scheme was incorporated as a component scheme of the Central Sector Scheme- Pradhan Mantri Kisan SAMPADA Yojana (PMKSY). The FSQAI component scheme provides financial assistance for setting up laboratories, with the objective of strengthening food-testing infrastructure across the country.

1. Objectives:

**CALCULATION OF NET-WORTH
(Only on the basis of supporting documents)**

I. Net Worth for Companies Registered under the Companies Act, 1956 or 2013:

1.1 Basis of Assessment:

As per Section 2(57) of the Companies Act, 2013, Net Worth shall mean:

the aggregate value of the paid-up share capital and all reserves created out of the profits, securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

1.2 Documents Required:

a) Latest annual audited balance sheet, certified by the Statutory Auditor with UDIN along with Audit Report.

II Net Worth for Limited Liability Partnerships (LLPs)

2.1 Basis of Assessment:

For Limited Liability Partnerships registered under the Limited Liability Partnership Act, 2008, Net Worth shall be computed in line with the principles applied to companies, with adaptation to the LLP structure.

Net Worth shall be calculated as the difference between Total Assets and Total External Liabilities, as reflected in the latest audited balance sheet, excluding:

- Revaluation reserves,
- Write-back of depreciation, and
- Amalgamation reserves, if any.

The Capital Contribution of the partners as per the LLP Agreement, and Accumulated Profits and free Reserves of the LLP shall be included, while any revaluation or speculative assets shall be excluded.

2.2 Documents Required:

- Latest audited balance sheet and profit & loss account of the LLP, certified by a Chartered Accountant with valid UDIN.
- Copy of the LLP Agreement and any supplementary agreements reflecting partners' capital contributions and profit-sharing ratios.

2.3 Additional Clarifications:

- The term "partners' capital" shall include all capital introduced and accumulated profits retained in the LLP.
- Personal assets or liabilities of partners shall not be included in the LLP's net worth calculation.

III Net Worth for Entities other than Companies and LLPs

3.1 Basis of Assessment:

Net Worth shall be calculated as Assets minus Liabilities of the individual proprietor/partners based on CA certified Assets and Liabilities certificate with UDIN. Guarantees with a high probability of crystallization (e.g., invoked or SMA-2 accounts) shall be deducted; all other guarantees shall, at a minimum, be disclosed and assessed.

3.2 Calculation Principles:

- a. Net Worth shall be the sum of Net-worth of the Individual partner (s) and the partnership/proprietorship firm (avoiding duplication of the investment in the partner(s) capital account of the firm) & the investments of each individual partner towards the partnership firm.
- b. In case, the applicant is ongoing partnership/ proprietorship firm, the annual audited balance sheet along with audit report of ongoing partnership/ proprietorship firm shall be submitted. Accordingly net worth will be calculated as given below:
 - Net Worth based on latest annual audited balance sheet will be considered.
 - If the net worth as per balance sheet is insufficient, then, CA-certified Statements of Assets and Liabilities of individual partners/proprietors may be taken into consideration provided assets are supported by relevant documents as per the guidelines and in any case, there should not be any duplicity of any of the components of assets.
 - Valuation of personal land and building other than the land and building reflected in the latest annual audited balance sheet may be considered separately in case of proprietorship/partnership with CA certification that the final combined net worth excludes duplicated entries confirmed by the partner.
- c. Since in a partnership/ proprietorship firm, liability of partners/ proprietors is unlimited, the applicant must submit:
 - CA certified "Nil Liability Statement" with UDIN or
 - CA certified "Statement of Assets and Liabilities" of individual partners/proprietors, with UDIN.
 - Net liabilities based on these statements will be deducted while ascertaining the net worth.

3.3 Documents Required:

- i. CA certified net worth statements (Assets minus Liabilities) with UDIN, supported with applicable documents.
- ii. Latest annual audited Balance Sheet of the entity along with audit Report (Mandatory, if audit is applicable to the entity).
- iii. Registered Title /Ownership documents of land (with notarized English/Hindi translation if original is in vernacular).
- iv. Circle Rate Documents issued by State Governments.
- v. Building Valuation Certificate from a Government Approved Registered Valuer.
- vi. Bank Accounts Statements for 6 months prior to date of submission of application.
- vii. Fixed Deposits – Fixed Deposit Receipt with Bank no-lien letter.
- viii. Insurer's Surrender Value Certificate (not premium receipts).
- ix. Shares of unlisted companies at face value; shares of listed companies/ mutual funds at the 6-month average market price prior to date of submission of proposal excluding pledged shares, supported by Demat Account Statement showing holdings and pledge status.

Common Conditions:

- i) Assets such as car, intangibles, jewelry, antiques, gold, cash in hand and speculative assets. etc. would not be considered for net worth.
- ii) Loans and advances given to group companies/ related concerns/ individuals will also not be considered towards computation of net worth.
- iii) Provisional balance sheet shall not be considered. Only latest annual audited balance sheet shall be considered.
- iv) Value of land and building as reflected in the latest annual audited balance sheet of the entity shall be considered for the purpose of calculation of net worth. i.e. no revaluation of land & building of entities will be considered.
- v) The applicant(s) will have to give a self-certification regarding the details of the encumbrance of the property submitted by them towards the net worth.
- vi) The applicant must ensure audited financial documents and CA certificates carry valid UDIN, issued from the ICAI UDIN Portal.
- vii) In case of Partnership / Proprietorship firm, ITR of last three financial years (complete return with computation) of individual partners shall be submitted.
